AIRPORT INTERDICTION TECHNIQUES AND RISK ASSESSMENT

Courses available upon request

UNODC INTRODUCTION TO INTERDICTION TECHNIQUES AT AIRPORTS

Introduction to Interdiction Techniques at Airports

Description: This module introduces the different interdiction techniques that can be used at airports to identify and intercept drug smugglers. It describes various interdiction techniques and why there is a need to use them.

Duration: 60 - 90 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

UNODC AIR CARGO RISK INDICATORS

Air Cargo Risk Indicators

Description: In this module, practitioners will learn how to inspect air cargo in order to identify shipments of cargo that may be carrying illegal drugs.

Duration: 60 - 90 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

UNODC AIR PASSENGER BAGGAGE

Air Passenger Baggage

Description: This module covers the preliminary observation and inspection of passenger baggage. The main objective of this module will be to teach practitioners how to first identify and then search baggage that is likely to contain drugs.

Duration: 60 - 90 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Performing a Search of an Aircraft

Description: This module will cover the basic concepts and techniques of how to systematically search an aircraft.

Duration: 60 - 90 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Preliminary Observation at Airports

Description: The objective of this module will be to teach the basic principles of preliminary observation so that practitioners can more effectively identify high-risk persons coming through airports.

Duration: 30 - 45 min.

Language(s) available: Khmer, Thai

Language(s) in production: English

Risk Assessment at Airports

Description: This module describes the process of performing a risk assessment at airports. The module raises the level of awareness and encourages practitioners to consider areas in the controls where there is a weakness or vulnerability to drug smuggling. The module also encourages practitioners to consider solutions to minimize or solve problems.

Duration: 75 - 120 min.

Language(s) available: Khmer, Thai

Language(s) in production: English

Review of Airline Tickets

Description: This module explains the purpose of each block on a typical airline ticket, as well as how to interpret the information contained therein and how to consider the various risk indicators.

 **Duration:** 80 - 115 min.

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Review of Passports at Airports

Description: This module covers how passports can be examined to reveal likely drug traffickers.

 **Duration:** 70 - 100 min

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Risk Profiling at Airports

Description: This module covers risk profiling, what it is and how to create a risk profile for use at airports. A risk profile looks at common drug smuggling characteristics and how by identifying these characteristics, an officer can get an idea of what drug traffickers might look like or what methods they might use.

 **Duration:** 45 - 90 min.

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Selection Methods at Airports

Description: This module is an introduction to the Selection process. It describes how by using preliminary observation, questioning, behavioral indicators and other methods an officer can select persons that are most likely to be involved in drug smuggling so that they can be given more attention.

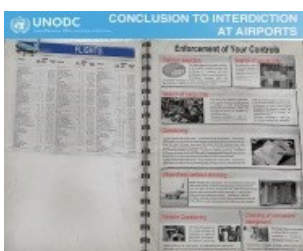

Duration: 30 - 45 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Conclusion to Interdiction at Airports

Description: This module reviews all the teaching points that has been covered in the interdiction techniques at airports training programme.

Duration: 90 - 120 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

ANTI-CORRUPTION

Introduction to Corruption

Description: This module is a brief introduction to the United Nations Convention Against Corruption. It includes what corruption is and the consequences it can have, as well as the requirement in the Convention for how corruption should be addressed.

Duration: 60 - 90 min.

Language(s) available: English, Arabic, French, Spanish

Advanced Anti-Corruption: Prevention of Corruption

Description: This module aims to acquire a thorough understanding of the United Nations Convention Against Corruption and explore how, as the only global, comprehensive and legally binding anti-corruption instrument, it can act as a framework for the fight against corruption across the globe.

Duration: 60 - 90 min.

Language(s) available: English, Arabic, French, Spanish

Rotten Fish – A Guide on Addressing Corruption in the Fisheries Sector

Description: This course addresses corruption in the fisheries sector. It will help practitioners better understand the impact of corruption in this industry while suggesting measures to prevent and reduce it.

Duration: 75 min.

Language(s) available: English

Language(s) in production: Spanish

Illicit Economies and Corruption on the Northern Border of Ecuador – Role of the Community

Description: This course explains the issue of illicit economies and corruption on the northern border of Ecuador and how these acts can be recognized, as well as the role of the community in the fight against these crimes.

Duration: 120 min.

Language(s) available: Spanish

Illicit Economies and Corruption on the Northern Border of Ecuador – Role of Public Servants

Description: This course explains the issue of illicit economies and corruption on the northern border of Ecuador and how these acts can be recognized, as well as the role of public servants in the fight against these crimes.

Duration: 120 min.

Language(s) available: Spanish

BASIC TRAINING ON CHARCOAL FORENSIC EXAMINATION

Basic Training on Charcoal Forensic Examination

Description: This course is designed to provide introductory knowledge and practical skills for criminal justice practitioners who encounter potentially illegal cargo of charcoal and need to undertake analysis for submission to a court of law.

Duration: 100 min.

Language(s) available: English

BASIC TRAINING FOR NATIONAL POLICE SERVICE OF KENYA

eLearning for National Police Service in Kenya

Description: This eLearning training course (7 modules) for police officers is designed to equip practitioners with the skills and knowledge needed for better service delivery to the public, noting the unique challenges for enforcing law and order during the pandemic period.

Duration: 45 min. per module

Language(s) available: English

CHILDREN ASSOCIATED WITH TERRORIST AND VIOLENT EXTREMIST GROUPS

Introductory Module on the Treatment of Children Associated with Terrorist and Violent Extremist Groups

Description: This module introduces the international legal framework and the broad principles of practice that guide prevention and response to the phenomenon of children associated with terrorist and violent extremist groups.

Duration: 90 min.

Language(s) available: English, Bahasa, Russian

Planning Comprehensive Rehabilitation and Reintegration Strategies for Children Associated with Terrorist and Violent Extremist Groups

Description: This module will introduce practitioners to the key concepts and tools that will assist in planning rehabilitation and reintegration programmes for children associated with terrorist and violent extremist groups.

Duration: 90 min.

Language(s) available: English, Bahasa, Russian

Comprehensive Rehabilitation and Reintegration Strategies in Action for Children Associated with Terrorist and Violent Extremist Groups

Description: This module introduces the international legal framework and the broad principles of practice that guide prevention and response to the phenomenon of children associated with terrorist and violent extremist groups.

Duration: 90 min.

Language(s) available: English, Bahasa, Russian

Justice for Children in the Context of Counter-Terrorism: An Introduction

Description: This module introduces the role of the child justice system and the implementation of strategies for children recruited and exploited by terrorist or violent extremist groups.

Duration: 70 min.

Language(s) in production: English, Bahasa, Russian

Putting Justice for Children into Practice in the Context of Counter-Terrorism

Description: This module focuses on practical strategies for the implementation of child rights in a counter-terrorism context, with exercises to assist practitioners in applying this knowledge to their own setting.

Duration: 70 min.

Language(s) in production: English, Bahasa, Russian

CLANDESTINE LABORATORIES AND PRECURSOR CONTROL

Clandestine Laboratories

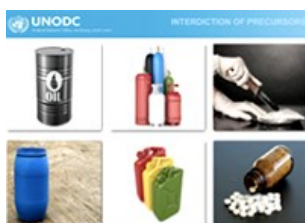

Description: This module is intended to assist law enforcement personnel in detecting clandestine drug laboratories and trafficking in precursors, materials and equipment used by these laboratories.

Duration: 60 min.

Language(s) available: English, French, Portuguese, Khmer, Sinhala, Thai

Interdiction of Precursors

Description: This module is intended to assist law enforcement personnel in detecting clandestine drug laboratories and trafficking in precursors, materials and equipment used by these laboratories.

Duration: 60 min.

Language(s) available: English, French, Portuguese, Sinhala, Thai

CONTAINER PROFILING AND EXAMINATION

Preliminary Assessment of Cargo

Description: This module covers the preliminary assessment of cargo in order to identify shipments of cargo that may be carrying illegal drugs.

Duration: 45 - 60 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Cargo Documentation

Description: This module covers the review of cargo documentation and how practitioners can use cargo document review as a means to quickly identify which shipments should be given further attention.

Duration: 45 - 60 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Performing a Container Search

Description: This module covers the basic concepts and techniques of how to systematically search a container. It will cover the different areas of a container and where spaces are or can be created and how to search these areas in a systematic way.

Duration: 90 - 120 min

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

CONTROLLED DELIVERIES

Understanding Controlled Deliveries

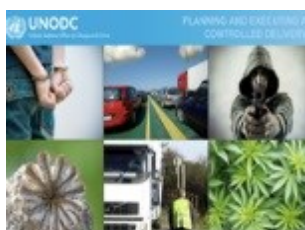

Description: In this module practitioners will learn what controlled deliveries are and how practitioners can use them to maximize their law enforcement efforts. This module will cover the risks and benefits of using controlled deliveries and under what circumstance controlled deliveries should be used.

Duration: 60 - 120 min.

Language(s) available: English, Farsi, French, Khmer, Portuguese, Sinhala, Thai

Planning and Executing a Controlled Delivery

Description: Taking the principles learned in the first module, this module applies them to the many different circumstances under which a controlled delivery can be initiated. Officers will know the basic steps that must be taken when planning a controlled delivery. Officers will learn about the different types of controlled deliveries and their specific circumstances. Finally, officers will know how to execute each of these types of controlled deliveries.

Duration: 90 - 150 min.

Language(s) available: English, Farsi, French, Khmer, Portuguese, Sinhala, Thai

COUNTER-TERRORISM

International Legal Framework Against Chemical, Biological, Radiological and Nuclear (CBRN) Terrorism

Description: This course intends to familiarize practitioners with the international legal framework against Chemical, Biological, Radiological and Nuclear (CBRN) Terrorism, legal obligations established by these instruments and mutual interactions between them.

Duration: 60 min.

Language(s) available: English, Arabic, Chinese, French, Portuguese, Russian, Spanish

Countering the Financing of Proliferation of Weapons of Mass Destruction by non-State actors

Description: This course helps practitioners understand the various financing schemes used by terrorist organizations to raise the funds and what are the appropriate measures to prevent terrorist fundraising, seize terrorist funds, and, in the process, make it very difficult for a terrorist organization to survive.

Duration: 40 min.

Language(s) available: English, Russian

International Convention for the Suppression of Acts of Nuclear Terrorism (ICSANT)

Description: This module focuses on the threat of nuclear terrorism and on one of the international legal instruments that aim to prevent and suppress it, namely the International Convention for the Suppression of Acts of Nuclear Terrorism (ICSANT).

Duration: 60 min.

Language(s) available: English, Arabic, Chinese, French, Portuguese, Russian, Spanish

Mental Health Consideration for the Rehabilitation and Reintegration of Foreign Terrorist Fighter Returnees and their Families

Description: This course (4 modules) provides a general overview of how certain mental illnesses may present and be experienced, to assist non-clinicians working with, or supporting, returns to refer to clinicians. This course may also assist qualified clinicians who are new to working with returns to consider diagnostic and treatment options.

Duration: 180 - 210 mins.

Language(s) available: English, Russian

Language(s) in production: French

CRIME SCENE INVESTIGATION

Basic Crime Scene Procedures

Description: This module covers what practitioners should do if crime scene investigators are not available.

 **Duration:** 60 - 120 min.

 **Language(s) available:** French, Kazakh, Russian, Urdu

 **Language(s) in production:** English

Crime Scene Awareness

Description: This module covers the crime scene, the different types of evidence and the importance of using a systematic process for the recognition, protection, recovery, analysis and use of evidence in court.

 **Duration:** 60 - 120 min.

 **Language(s) available:** French, Portuguese, Urdu

 **Language(s) in production:** English

Crime Scene First Responders

Description: This module covers what first responders to a crime scene should do when arriving at a crime scene.

 **Duration:** 45 - 90 min.

 **Language(s) available:** French, Portuguese, Urdu

 **Language(s) in production:** English

DECISION-MAKING AT PRE-TRIAL DETENTION HEARINGS IN BRAZIL

Decision-Making At Pre-Trial Detention Hearings In Brazil

Description: This course (5 modules) introduces the legal and institutional aspects of decision-making during pre-trial detention hearings in Brazil.

Duration: 345 min.

Language(s) in production: Portuguese

GENDER ISSUES

Access to Legal Aid for Women in Criminal Justice Systems

Description: This module is designed to equip practitioners with the skills and knowledge needed for better service delivery to women beneficiaries of legal aid, as victims, witnesses or alleged offenders.

Duration: 60 min.

Language(s) available: English, French

AIRCOP Introductory Training on Gender in Law Enforcement

Description: This training offers an introduction to gender, gender equality, and gender perspectives for law enforcement agencies working at airports.

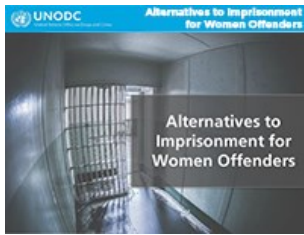

Duration: 45 min.

Language(s) available: English

Language(s) in production: Arabic, Spanish

Alternatives to Imprisonment for Women Offenders

Description: This course was developed by UNODC and the Council of Europe for criminal justice practitioners. It addresses gender-based discrimination in the criminal justice system and explains the different non-custodial measures that should be available for women offenders in line with international standards and norms.

Duration: 60 - 90 min.

Language(s) available: English

Essential Services Package for Women and Girls Subject to Violence - Overview and Introduction

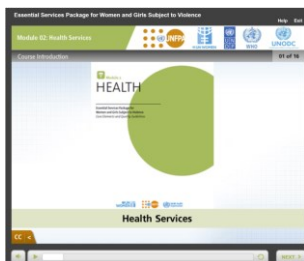

Description: 1. Overview and Introduction, 2. Health Services, 3. Justice and Policing, 4. Social Services, 5. Coordination and Governance of Coordination

Duration: 60 min.

Language(s) available: English

Essential Services Package for Women and Girls Subject to Violence – Health Services

Description: 1. Overview and Introduction, 2. Health Services, 3. Justice and Policing, 4. Social Services, 5. Coordination and Governance of Coordination

Duration: 60 min.

Language(s) available: English

Essential Services Package for Women and Girls Subject to Violence - Justice and Policing

Description: 1. Overview and Introduction, 2. Health Services, 3. Justice and Policing, 4. Social Services, 5. Coordination and Governance of Coordination

Duration: 60 min.

Language(s) available: English, Urdu

Essential Services Package for Women and Girls Subject to Violence - Social Services

Description: 1. Overview and Introduction, 2. Health Services, 3. Justice and Policing, 4. Social Services, 5. Coordination and Governance of Coordination

Duration: 60 min.

Language(s) available: English

Essential Services Package for Women and Girls Subject to Violence - Coordination and Governance of Coordination

Description: 1. Overview and Introduction, 2. Health Services, 3. Justice and Policing, 4. Social Services, 5. Coordination and Governance of Coordination

Duration: 60 min.

Language(s) available: English

Gender-Responsive Non-Custodial Measures

Description: This module explores non-custodial measures from a gender perspective and their role in combatting discrimination against women in the criminal justice system.

Duration: 75 min.

Language(s) in production: English

Gender Equality and Organized Crime

Description: This module will enable the learner to understand the basic concepts related to organized crime and gender equality, explain why gender considerations matter in discussing organized crime and the required crime prevention and criminal justice response, recognize how gender influences different people's experiences in relation to organized crime - as perpetrators, as victims and as crime prevention and criminal justice actors, and demonstrate ways to mainstream gender into UN's efforts on countering organized crime and the crime prevention and criminal justice response.

Duration: 60 min.

Language(s) available: English

Gender Issues in Cases of Child Sexual Exploitation

Description: This module covers gender issues in cases of child sexual exploitation. It develops the ability of law enforcement officials to understand the role of the police in the protection and prevention of child sexual exploitation in tourism and travel and the gender issues surrounding child sexual exploitation.

Duration: 60 min.

Language(s) available: English

Implementing a Coordinated Criminal Justice Response to Gender-based Violence Against Women

Description: This module explored the building blocks of an effective, coordinated criminal justice response to gender-based violence against women. It explains the relevant international standards and norms; practitioners' roles in the coordinated criminal justice response to gender-based violence against women.

Duration: 90 min.

Language(s) available: English

Language(s) in production: Spanish

Femicide and Police Action

Description: This module provides information on femicide and the correlation with gender-based violence against women, as well as explore key issues to keep in mind related to police ethics and self-care.

Duration: 60 min.

Language(s) available: Spanish

Toolkit: Gender & Security Sector Reform

Description: This toolkit aims to integrating a gender perspective into the work of the actors and institutions that comprise the security sector and its supporting structures. The toolkit presents best practices and recommendations for strengthening a gender perspective within the security sector.

Duration: 60 - 90 min.

Language(s) available: English, Arabic, Bahasa, French, Montenegrin, Russian, Spanish

GOOD PRACTICES IN POLICE CAPACITY-BUILDING

Good Practices in Police Capacity-Building

Description: In this course, practitioners will be introduced to good practices in capacity-building in police training institutions.

Duration: 75 min.

Language(s) available: English, Kazakh, Russian

HIV/AIDS

Training for Law Enforcement Officials on HIV Service Provision for People Who Inject Drugs

Description: This course (3 modules) assists law enforcement officials in understanding HIV prevention, treatment, care and support services for people who inject drugs.

Duration: 120 min.

Language(s) available: English

Language(s) in production: Russian

HIV Prevention, Treatment, Care and Support for People Who Use Stimulant Drugs

Description: This course (2 modules) provides guidance on implementing comprehensive HIV programmes for people who use stimulant drugs and are vulnerable to HIV.

Duration: 90 min.

Language(s) in production: English

UN Cares HIV in the Workplace

Description: This module is designed to reduce the impact of HIV on the UN workplace by supporting “universal access” to a comprehensive range of benefits for all UN personnel and their families.

Duration: 60 - 90 min.

Language(s) available: English, Arabic, French, Spanish

HUMAN RIGHTS

Application of Human Rights by Law Enforcement Officers

Description: This module outlines the basic principles and concepts of human rights protection. It considers the importance of human rights in the context of conducting law enforcement duties and the consequences of their violation. It explores fundamental human rights of key relevance to law enforcement, how to apply a human-rights based approach and introduces the role of other criminal justice practitioners and other bodies in respecting, protecting and fulfilling human rights.

Duration: 60 min.

Language(s) available: French, Urdu

Language(s) in production: English, Spanish

Human Rights in the Community

Description: This module looks at Human Rights through the eyes of a community member. It explores the basic principles and human rights important to a member of the community and particularly rights that are significant during times of emergency or conflict. It looks at what protection human rights should offer when facing the criminal justice system and how these rights are established under specific covenants or treaties. Finally, it takes a closer look at the rights of victims of crime and how they should expect to be dealt with by law enforcement officers.

Duration: 60 min.

Language(s) available: Urdu

Language(s) in production: English

Human Rights in the Work of UNODC

Description: This module encourages the learners to think about what human rights are and how they are at the core of the United Nations mandate. Learners will also learn about the legal protections provided by human rights.

Duration: 60 min.

Language(s) available: English

Preventing Conflict Using a Human Rights Based Approach

Description: This module looks at what is a human rights approach and how taking a human rights approach can assist to prevent, transform or resolve conflict. It looks at how law enforcement officials should act in accordance with a human rights based approach and the keys actions for applying this approach in the criminal justice sector during times of conflict or emergency.

Duration: 60 min.

Language(s) available: Urdu

Language(s) in production: English

HUMAN TRAFFICKING

Understand Human Trafficking

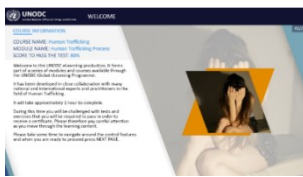

Description: In this module, the objective is to introduce practitioners to human trafficking and the problems that law enforcement faces in dealing with this serious crime.

Duration: 60 min.

Language(s) available: English, Arabic

Human Trafficking Process

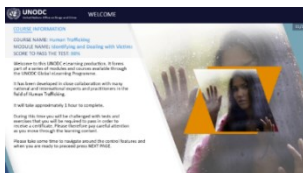

Description: The objective of this module is to enable practitioners to better detect, investigate and prosecute offenders by learning about the process of human trafficking, how it works, and the different actions involved.

Duration: 60 min.

Language(s) available: English

Identifying and Dealing with Victims

Description: The objective of this module is to raise the awareness to enable practitioners to better identify and deal with victims of human trafficking.

Duration: 60 min.

Language(s) available: English

IMPLEMENTATION OF INTERNATIONAL DRUG POLICY COMMITMENTS

Implementation of International Drug Policy Commitments

Description: In this course (7 modules) practitioners will learn about the international commitments made in addressing and countering the world drug problem and explore examples of their practical implementation.

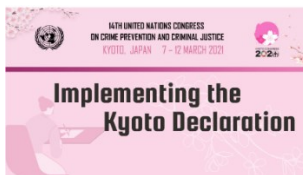

Duration: 290 min.

Language(s) available: English

IMPLEMENTING THE KYOTO DECLARATION

Implementing the Kyoto Declaration

Description: In this course (3 modules) practitioners will learn about the background of the Kyoto Declaration, its relation to the 2030 Agenda for Sustainable Development and the substantive areas covered in the Kyoto Declaration.

Duration: 150 min.

Language(s) available: English

IMPLEMENTING THE UNITED NATIONS INTEGRITY CURRICULUM AT UNIVERSITIES

Implementing the United Nations Integrity Curriculum at Universities

Description: Completing this course (9 modules) will increase practitioners' confidence and capacity to make the most of the UNODC educational resources and, in doing so, enable them to enrich anti-corruption, integrity and ethics teaching in respective institutions.

Language(s) available: English, Spanish

INTELLIGENCE ANALYSIS

Association Link Chart

Description: This module covers how to create an Association Link Chart and will explain how an Association Link Chart can help practitioners identify links between persons, places and commodities.

Duration: 90 - 120 min.

Language(s) available: English, Khmer, Thai

Association Matrix

Description: This module covers the creation of an association matrix and how it can be used to identify links between entities.

Duration: 90 - 120 min.

Language(s) available: English, Bahasa, Khmer, Thai

Basic Intelligence Analysis

Description: This module covers the Basic Intelligence Analysis and why it is a critical part of intelligence.

Duration: 60 min.

Language(s) available: English, Khmer, Sinhala, Thai

Commodity Flow Chart

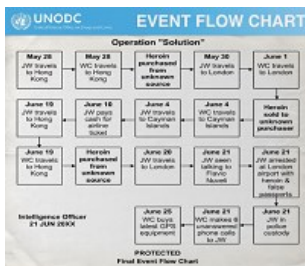

Description: This module covers how to create a Commodities Flow Chart and how it can be used to identify the flow of commodities in the crime that practitioners are investigating.

Duration: 60 - 100 min.

Language(s) available: English, Bahasa, Khmer, Thai

Event Flow Chart

Description: This module covers flow chart symbols and their usages and what consists of event rule groups and steps.

Duration: 60 - 90 min.

Language(s) available: Khmer, Thai

Language(s) in production: English

Developing a Conclusion

Description: This module covers how to take all the information that has been analyzed to create premises, inferences and conclusions.

Duration: 60 - 100 min.

Language(s) available: English, Khmer, Thai

INTERNATIONAL NARCOTICS CONTROL BOARD (INCB)

The International Drug Control Framework and the International Narcotics Control Board (INCB)

Description: This module explains the fundamental principles of the International Drug Control Framework and the work of the International Narcotics Control Board (INCB).

Duration: 45 min.

Language(s) available: English, French, Portuguese, Spanish

Assessment System for Psychotropic Substances

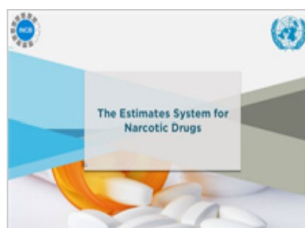

Description: This module explains the system of assessments of psychotropic substances, how to develop a suitable method for adequately establishing assessment of psychotropic substances and how to report the annual assessments to International Narcotics Control Board (INCB).

Duration: 35 min.

Language(s) available: English, French, Portuguese, Spanish

The Estimates System for Narcotic Drugs

Description: This module explains the estimates system for narcotic drugs. In this module, practitioners can learn how to estimate legitimate requirements for narcotic drugs and report annual and supplementary estimates to the International Narcotics Control Board (INCB). This module also outlines the actions taken by INCB with regard to these estimates.

Duration: 80 min.

Language(s) available: English, French, Portuguese, Spanish

Estimates of Annual Legitimate Requirements (ALRs) for Imports of Precursors of Amphetamine-Type Stimulants

Description: This module explains the fundamentals of estimating annual legitimate requirements (ALRs) for imports of certain precursors of amphetamine-type stimulants (ATS) and how to submit them to the International Narcotics Control Board (INCB).

Duration: 25 min.

Language(s) available: English, French, Portuguese, Spanish

Ensuring the Adequate Availability of Controlled Substances for Medical and Scientific Purposes

Description: In this module, practitioners will be introduced to what availability means and the role of the INCB in ensuring adequate availability of, and access to, controlled substances for medical and scientific purposes. This module focuses on one of the seven thematic chapters of the United Nations General Assembly Special Session (UNGASS) 2016 outcome document - the chapter on the adequate availability of controlled substances for medical and scientific use.

Duration: 60 min.

Language(s) available: English, Russian

Language(s) in production: French, Portuguese, Spanish

INTERNATIONAL CLASSIFICATION OF CRIME FOR STATISTICAL PURPOSES (ICCS)

International Classification of Crime for Statistical Purposes (ICCS)

Description: This course outlines what the International Classification of Crime for Statistical Purposes (ICCS) is and how it enables the cross-cutting monitoring of criminal offences across all criminal justice institutions.

Duration: 120 min.

Language(s) in production: English

INTERVIEW AND SEARCH OF PERSONS

Behavioural Indicators

Description: In this module, students will learn about behavioural indicators and what signs to look for in order to identify persons who are acting suspiciously and likely to be involved in drug smuggling. This module is linked closely to the module on initial questioning techniques.

 **Duration:** 60 - 100 min.

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Body Carry

Description: This module covers the smuggling of illegal drugs through body carry. By the end of this course, the student will have a clear understanding of what body carry is and why it presents a problem to drug law enforcement and how to recognize body-carry drug smugglers.

 **Duration:** 60 - 100 min.

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Performing a Search of Persons

Description: This training programme will teach officers how to search a person. It will cover some of the most common types of searches and the safety precautions and other considerations that must be taken before a search is carried out.

 **Duration:** 90 - 120 min.

 **Language(s) available:** Bahasa, Khmer, Thai

 **Language(s) in production:** English

Questioning Persons

Description: This module covers the basics of how to question a person, the types of questions to ask and how to listen effectively to a person's answers. Questioning is a very simple and often quick method of identifying drug smugglers.

Duration: 90 - 120 min.

Language(s) available: Bahasa, French, Khmer Sinhala, Thai, Urdu

Language(s) in production: English

INTRODUCTION AND APPLICATION OF INTELLIGENCE

Introduction to Intelligence

Description: This first module of Introduction to Intelligence will introduce practitioners to intelligence and how it relates to law enforcement.

 **Duration:** 60 min.

 **Language(s) available:** Khmer, Sinhala, Thai

 **Language(s) in production:** English

Application of Intelligence

Description: This second module of Introduction to Intelligence will introduce practitioners to the application of Intelligence and its important role in law enforcement.

 **Duration:** 60 min.

 **Language(s) available:** Khmer, Sinhala, Thai

 **Language(s) in production:** English

The Intelligence Cycle

Description: In this third and final module of Introduction to Intelligence covers the different phases and steps that are part of the Intelligence Cycle. Practitioners will have an overall understanding of how the Intelligence Cycle works in law enforcement.

 **Duration:** 60 min.

 **Language(s) available:** Khmer, Sinhala, Thai

 **Language(s) in production:** English

INVESTIGATING DRUG ORGANIZED CRIME

Investigating Drug Organized Crime

Description: In this module we will cover what organized crime is and the importance of identifying and furthering investigations in order to identify the persons planning, financing and managing criminal operations.

Duration: 90 - 120 min.

Language(s) available: French, Portuguese, Sinhala

Language(s) in production: English, Tajik

Techniques Used in Investigating Drug Organizations

Description: This module will cover the different techniques that can be used in order to further an investigation and identify and arrest the persons in charge of criminal organizations.

Duration: 120 - 180 min.

Language(s) available: French, Portuguese, Sinhala

Evidence and Drug Organized Crime

Description: This module covers the importance of using evidence to further an investigation and how to handle evidence so that it can be used in a court of law.

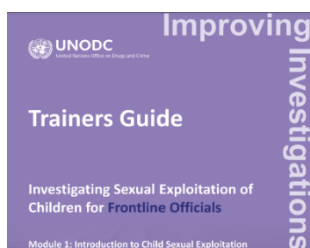

Duration: 90 - 120 min.

Language(s) available: French, Portuguese, Sinhala

INVESTIGATING SEXUAL EXPLOITATION OF CHILDREN

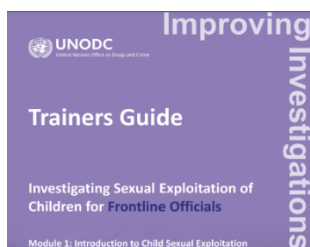

Introduction to Investigation of Child Sexual Exploitation

Description: This module aims to develop the ability of frontline law enforcement officials. Practitioners will learn about the phenomenon of sexual exploitation of children and the laws relating to it.

Language(s) available: English

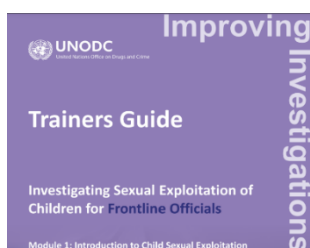

Victims in Child Sexual Exploitation Cases

Description: This module aims to develop the ability of frontline officials to identify and interview victims. Practitioners will learn interview skills specific to child victims of sexual exploitation.

Language(s) available: English

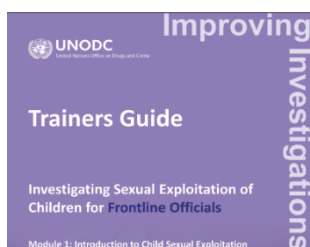

Evidence in Child Sexual Exploitation Cases

Description: This self-paced module aims to enhance the skills of frontline law enforcement officials in crime scene preservation and evidence collection. Practitioners will learn how to collect evidence in child sexual exploitation cases.

Language(s) available: English

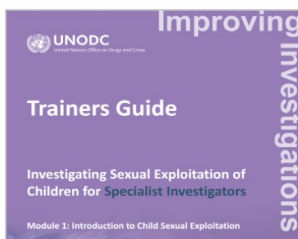

First Responder Duties in Child Sexual Exploitation Cases

Description: This module aims to develop an understanding of the duties of a frontline official and their practical skills as first responders to a case involving child sexual exploitation.

Language(s) available: English

INVESTIGATING SEXUAL EXPLOITATION OF CHILDREN FOR SPECIALIST INVESTIGATORS

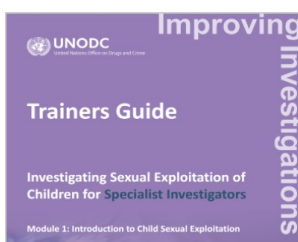

Introduction to Investigation of Child Sexual Exploitation

Description: This module aims to develop the ability of specialist law enforcement officials to understand sexual exploitation of children and the relevant international and domestic legal context.

Language(s) available: English

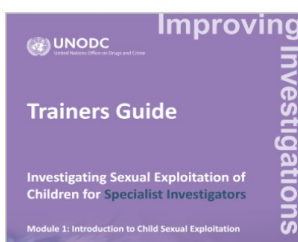

Child Sex Offenders

Description: This module aims to provide specialist investigators with the knowledge and skills to identify travelling child sex offenders.

Language(s) available: English

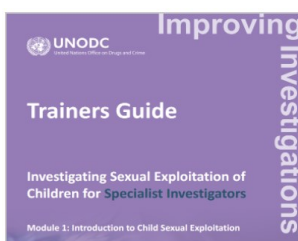

Cooperation in Child Sexual Exploitation Cases

Description: This module covers the necessary knowledge and skills needed to cooperate with domestic and international agencies in child exploitation investigations.

Language(s) available: English

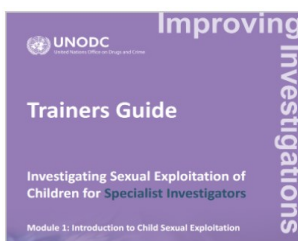

Evidence in Child Sexual Exploitation Cases

Description: This module aims to enhance the skills of specialist investigators to conduct search and seizure operations and to collect evidence in child sexual exploitation cases in compliance with relevant legal standards.

Language(s) available: English

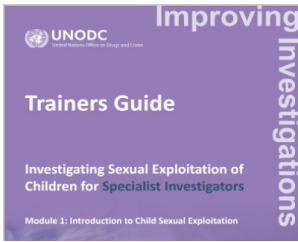

Investigating Child Sexual Exploitation Cases

Description: This module aims to ensure that investigators are able to understand investigation techniques, risk assessment analysis, and procedures for managing cases of child sexual exploitation.

Language(s) available: English

Victims in Child Sexual Exploitation Cases

Description: This module aims to develop the ability of specialist investigators to identify victims and build up interview skills to interview child victims as witnesses in accordance with legal requirements and accepted best practices.

Language(s) available: English

INVESTIGATIVE INTERVIEWING

Investigative Interviewing

Description: In this course (3 modules), practitioners will learn what an investigative interview is and how using this methodology increases the likelihood of retrieving reliable information that will stand the test of a trial.

Duration: 195 min.

Language(s) available: Arabic, English, French, German, Russian, Spanish

Human Memory

Description: In this module, practitioners will learn about the psychology of human memory, as well as some relevant key considerations regarding human memory when conducting an investigative interview.

Duration: 30 min.

Language(s) in production: English

Communication

Description: In this module, practitioners will learn how to foster strong communication during an investigative interview and better meet the needs and rights of the interviewee through appropriate communication.

Duration: 25 min.

Language(s) in production: English

Investigation Management and Decision-making

Description: In this module, practitioners will explore how to analyze evidence more critically and actively identify alternative explanations for the evidence.

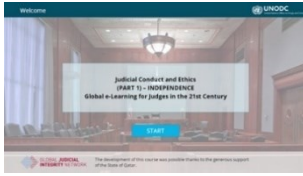

Duration: 20 min.

Language(s) in production: English

JUDICIAL ETHICS

Judicial Conduct and Ethics: Independence

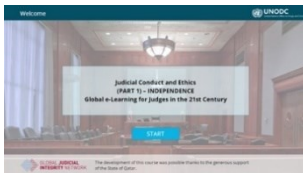

Description: This self-paced module is an introduction to the origins, purpose and content of the Bangalore Principles of Judicial Conduct. It covers the first Principle of Independence and explains its relevance and application to a judge's work and life. It also describes the interaction between social media and judicial conduct.

Duration: 80 min.

Language(s) available: English, Arabic, French, Portuguese, Russian Spanish

Judicial Conduct and Ethics: Impartiality and Integrity

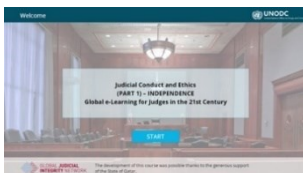

Description: This self-paced module covers the second and third Bangalore Principles of Impartiality and Integrity. It describes the most common biases which judges should be aware of and explains how impartiality and integrity issues may come into play both within and outside of a judge's workplace.

Duration: 60 min.

Language(s) available: English, Arabic, French, Portuguese, Russian Spanish

Judicial Conduct and Ethics: Propriety, Equality and Competence and Diligence

Description: This self-paced module looks at the fourth, fifth and sixth Bangalore Principles of Propriety, Equality and Competence and Diligence. It explains how these Principles apply to a judge's work and life and describes a range of methods to help a judge deal with associated challenges. It also introduces various gender-related topics that may raise potential breaches of the Bangalore Principles. This module is the final module in this series.

Duration: 60 min.

Language(s) available: English, Arabic, French, Portuguese, Russian Spanish

LAND BORDER INTERDICTION

Courses available upon request

Introduction to Interdiction Techniques for Land Controls

Description: This module introduces the different interdiction techniques that can be used at land controls to identify and intercept drug smugglers. It describes various interdiction techniques and why there is a need to use them.

Duration: 60 - 100 min.

Language(s) available: Bahasa, French, Khmer, Sinhala, Thai, Urdu

Risk Assessment for Land Controls

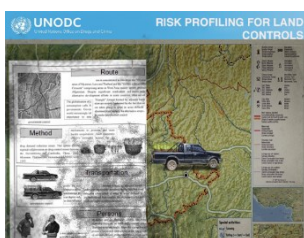

Description: This module describes the process of performing a risk assessment at border crossings and inland checkpoints. It raises the level of awareness and encourages the student to consider areas in the controls where there is a weakness or vulnerability to drug smuggling. It also encourages the student to consider solutions to minimize or solve the problems.

Duration: 90 - 120 min.

Language(s) available: Bahasa, Khmer, Sinhala, Thai, Urdu

Risk Profiling for Land Controls

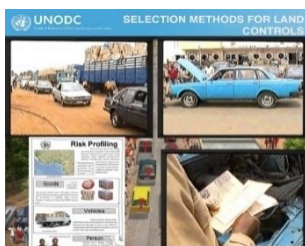

Description: This module covers risk profiling, what it is and how to create a risk profile for use at land controls. A risk profile looks at common drug smuggling characteristics and how by identifying these characteristics, an officer can get an idea of what drug traffickers might look like or what methods they might use.

Duration: 60 - 90 min.

Language(s) available: Khmer, Thai

Selection Methods for Land Controls

Description: This module is an introduction to the Selection process. It describes how by using preliminary observation, questioning, behavioural indicators and other methods an officer can select persons that are most likely to be involved in drug smuggling so that they can be given more attention.

Duration: 30 - 45 min.

Language(s) available: Bahasa, Khmer, Thai

Preliminary Observation for Land Controls

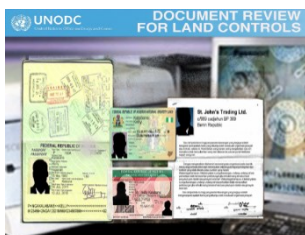

Description: The goal of preliminary observation is to quickly observe a person or vehicle in order to identify those persons that are most likely to be involved in drug smuggling.

Duration: 45 - 60 min.

Language(s) available: Bahasa, Khmer, Sinhala, Thai, Urdu

Document Review for Land Controls

Description: This module covers the review of documents that are used at typical land controls including identification cards, passports and vehicle identification. The module also describes the various risk indicators that can be found when reviewing documents.

Duration: 30 - 45 min.

Language(s) available: Bahasa, Khmer, Thai

Cargo Risk Indicators for Land Controls

Description: This module covers how to review cargo and its documentation in order to determine which shipments are most likely to be used in drug smuggling. Students will learn how to evaluate if a shipment makes economic sense and other information that will help officers select those shipments that are most likely to be used for drug trafficking.

Duration: 60 - 90 min.

Language(s) available: Bahasa, Khmer, Thai

The Review of Passports for Land Controls

Description: In this module we consider how passports can be examined to reveal likely drug traffickers.

Duration: 70 - 100 min.

Language(s) available: Bahasa, Khmer, Thai

Performing a Car Search

Description: This module will cover the basic concepts and techniques of how to systematically search a car. It will cover the different areas of a car and that the most important goal when searching a car is not to look for drugs but to look for spaces where drugs might be concealed.

Duration: 90 - 120 min.

Language(s) available: Bahasa, French, Khmer, Sinhala, Thai, Urdu

Conclusion to Interdiction for Land Controls

Description: In this concluding module, the student will review everything they have learned in the training programme. They will learn how all this information is used to identify which persons, cargo or vehicles should be given the most attention in order to identify drug smugglers.

Duration: 90 - 120 min.

Language(s) available: Khmer, Thai

MARITIME CRIME

Maritime Crime: A Course for Criminal Justice Practitioners

Description: This course (composed of 17 modules) contains an examination of a number of maritime crimes in detail for the first time, including the smuggling of migrants, terrorism, fuel theft and kidnap for ransom. The course also includes chapters on human rights at sea.

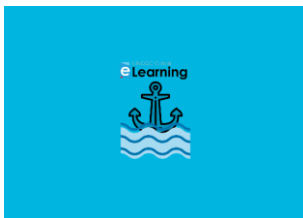

Duration: 30 - 40 min. per module.

Language(s) available: English

Language(s) in production: French, Portuguese, Spanish

Introduction to Maritime Domain Awareness Concepts

Description: This module will help newcomers to maritime security activities understand the concept and purpose of MDA, what elements make up an MDA regime, and what goes into making MDA useful for enhancing maritime security.

Duration: 60 min.

Language(s) available: English

Maritime Communications Training

Description: This module provides an introduction into marine communication systems for operator personnel, who aspire to become certified in marine communications. It provides a threshold for familiarization with equipment types, terminology and operational approaches for selected equipment.

Duration: 60 min.

Language(s) available: English

MONEY LAUNDERING AND FINANCIAL CRIMES

Understanding Money Laundering

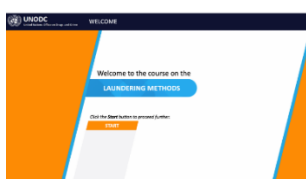

Description: This module introduces the topic of money laundering. This module covers some common money laundering methods and actions that can be taken to fight money laundering. Practitioners will learn what money laundering is and why criminals need to launder money.

Duration: 60 - 90 min.

Language(s) available: English, Bahasa, Thai

Laundering Methods

Description: This module covers the methods that criminals use to launder money and what methods are used in the three stages of money laundering. Practitioners will learn about common money laundering methods.

Duration: 75 - 120 min.

Language(s) available: English, Bahasa, Thai

Traditional Financial Institutions

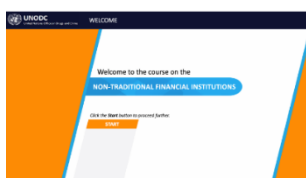

Description: This self-paced module covers financial transactions and what steps can be taken to combat money laundering, different types of financial records and the information that they contain. Practitioners will learn what steps financial institutions can take in order to prevent money laundering and how to recognize signs of suspicious transactions.

Duration: 45 - 90 min.

Language(s) available: English, Bahasa, Thai

Non-Traditional Financial Institutions

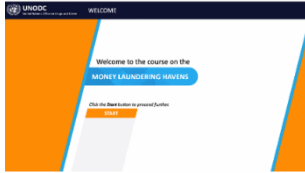

Description: This module covers informal financial institutions. Practitioners will learn what informal financial institutions are, how they are used by money launderers to launder their money, what the alternative remittance system is and how it works.

Duration: 30 - 45 min

Language(s) available: English, Bahasa, Thai

Money Laundering Havens

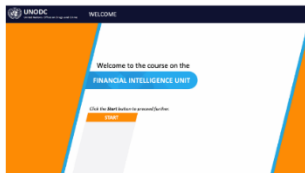

Description: This module covers financial havens and how money launderers use them. Practitioners will learn the different services that they offer, how these services are used by money launderers to layer and integrate their illegal proceeds.

Duration: 30 - 60 min.

Language(s) available: English, Bahasa, Thai

Financial Intelligence Unit

Description: This module covers financial intelligence units. Practitioners will learn why there is a need for a financial intelligence unit, the roles and responsibilities of a financial intelligence unit, and what factors are important for the success of a financial intelligence unit.

Duration: 80 - 115 min.

Language(s) available: English, Bahasa, Thai

Financial Investigations

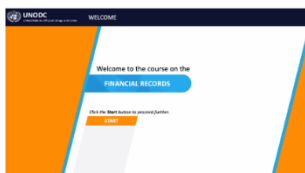

Description: This module covers how financial investigations are conducted. Once this module is finished, practitioners will know the different phases of a financial investigation. Practitioners will understand the process and the information that is needed in order to initiate an investigation and understand why planning is so important.

Duration: 70 - 100 min.

Language(s) available: English, Bahasa, Thai

Financial Records

Description: This module covers where and how to obtain financial records for use in a money laundering investigation. Practitioners will learn about the different institutions that keep records relevant to a financial investigation and the type of records that can be obtained at each institution.

Duration: 60 - 100 min.

Language(s) available: English, Bahasa, Thai

Informants

Description: This module covers how to locate, manage and develop informants for use in a money laundering investigation. Practitioners will learn what informants are and their importance in an investigation, where to locate informants for use in a money laundering investigation and the factors that must be considered when developing and handling informants.

Duration: 60 - 100 min.

Language(s) available: English, Bahasa, Thai

Undercover Operations

Description: This module covers surveillance and undercover operations and their usefulness in money laundering investigations. Once this module is finished, practitioners will know what surveillance is and how it can be used in financial investigations. Practitioners will learn what undercover operations are and their usefulness in financial investigations

Duration: 60 - 90 min.

Language(s) available: Bahasa, Thai

Net Worth Analysis

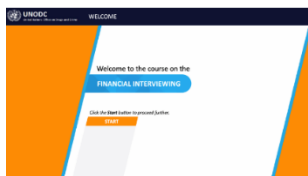

Description: This module covers how to perform a net worth analysis in order to determine what assets were acquired through unknown or illegal sources. Once this module is finished, practitioners will know what a net worth analysis is and its purpose. Practitioners will learn how a net worth is calculated and what factors must be considered when calculating a net worth.

Duration: 60 - 90 min.

Language(s) available: English, Bahasa, Thai

Financial Interviewing

Description: This module covers how to interview and interrogate persons. Practitioners will learn how to prepare for interviews and interrogations, including what type of questions to ask and under what circumstances they should be used. Practitioners will learn a number of approaches that can be used to more effectively obtain information.

Duration: 90 - 120 min.

Language(s) available: English, Bahasa, Thai

Introduction to Trade-based Money Laundering

Description: This course contains a series of trade-based money laundering modules available through the UNODC Global eLearning platform. It has been developed in close collaboration with international experts and practitioners in tax and custom crimes and anti-money-laundering.

Duration: 120 min.

Language(s) available: English, Spanish

Controls on Travellers' Cross-border Cash Transportation

Description: This module provides an overview of how criminals move cash across borders for money laundering purposes, as well as the global instruments and tools developed to address, among others, money laundering through cross-border transportation of criminal cash.

Duration: 70 min.

Language(s) available: English, Spanish

Countering the Financing of the Proliferation of Weapons of Mass Destruction (WMD)

Description: This course explores the various financing schemes used by terrorist organizations to raise funds, as well as the appropriate measures to prevent terrorist fundraising, seize terrorist funds, and make it difficult for a terrorist organization to survive.

Duration: 120 min.

Language(s) available: English

Language(s) in production: Arabic, French

Counter Proliferation Financing

Description: This course (3 modules) explores the importance of constructing defences against financing transactions that enable proliferation of WMD, the key role of the international framework in countering proliferation financing, as well as measures to counter proliferation financing.

Duration: 140 min.

Language(s) available: English

Developing and Implementing Policies and Procedures to Strengthen Financial Investigations

Description: This module explores the importance of policies and procedures in making anti-corruption agencies (ACAs) more accountable and effective, as well as how to develop and implement appropriate policies and procedures within ACAs.

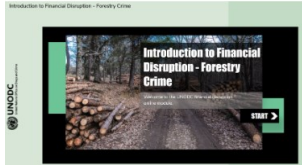

Duration: 90 min.

Language(s) available: English, Portuguese

Language(s) in production: French

Financial Disruption - Forestry Crime

Description: This Financial Disruption module brings together Member States' good practices into a practical framework which can maximize the effectiveness and efficiency of financial disruptions against illegal logging syndicates.

Duration: 70 min.

Language(s) available: English

Language(s) in production: Spanish

Introduction to Financial Disruption - Money or Value Transfer Services

Description: This Financial Disruption module brings together Member States' good practices into a practical framework which can maximize the effectiveness and efficiency of financial disruptions against money or value transfer services.

Duration: 70 min.

Language(s) in production: English, Dari

Introduction to Financial Disruption - Targeting Proliferation Financing

Description: This Financial Disruption module brings together Member States' good practices into a practical framework which can maximize the effectiveness and efficiency of financial disruptions against criminal and proliferation networks.

Duration: 120 min.

Language(s) available: English

Introduction to Financial Disruption - Terrorism

Description: This Financial Disruption module brings together Member States' good practices into a practical framework which can maximize the effectiveness and efficiency of financial disruptions against criminal and proliferation networks.

Duration: 120 min.

Language(s) available: English

Language(s) in production: French

Measures to Counter Proliferation Financing

Description: This module explains the basics of Measures to Counter Proliferation Financing. In this course, practitioners will learn about the significance of national proliferation finance risk assessments; the national agencies and international organizations to counter proliferation finance; and preventive measures implemented by financial institutions to counter proliferation finance.

Duration: 40 min.

Language(s) available: English

Search Operations

Description: This module covers factors that should be considered when performing a search to obtain evidence in a money laundering investigation. Practitioners will learn what factors must be considered when performing a search for financial records, why assets should also be seized at the same time when searching for financial records and the seizing and processing of computer-based evidence.

Duration: 60 - 90 min.

Language(s) available: English, Bahasa, Thai

Whistleblower Protection

Description: This module covers factors that should be considered when performing a search to obtain evidence in a money laundering investigation. Practitioners will learn what factors must be considered when performing a search for financial records, why assets should also be seized at the same time when searching for financial records and the seizing and processing of computer-based evidence.

Duration: 70 min.

Language(s) available: English, Portuguese

Language(s) in production: French, Spanish

NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES ACT OF INDIA

Narcotic Drugs and Psychotropic Substances Act of India

Description: This eLearning course introduces practitioners to the Narcotic Drugs and Psychotropic Substances (NDPS) Act 1985, NDPS Rules and related acts and orders.

Duration: 240 min.

Language(s) available: English, Hindi

ORGANIZED CRIME

Understanding Transnational Organized Crime

Description: This self-paced module focuses on understanding organized crime, organized criminal groups and provisions of UN convention on organized crime. It also focuses on the social and criminal justice responses to organized crime, including law enforcement tools and prosecution strategies.

Duration: 90 min.

Language(s) available: English, French, Spanish

Mechanism for the Review of the Implementation of the UNTOC and the Protocols Thereto

Description: This self-paced module provides a general overview on the Review Mechanism of the Implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto.

Duration: 60 min.

Language(s) available: English, Arabic, Chinese, French, Russian, Spanish

PREVENTING VIOLENT EXTREMISM THROUGH SPORT

Preventing Violent Extremism through Sport

Description: This course is comprised of three modules which cover the potential of sport to prevent violent extremism, the relevant theories of change, as well as good practice and programming principles.

Duration: 135 min.

Language(s) available: English, Arabic, Kyrgyz, Russian, Tajik, Uzbek

PREVENTION, TREATMENT AND REHABILITATION

Basic Counselling Skills

Description: This course helps to identify and conduct useful counselling strategies, structure a regular counselling session, understand the importance of clinical supervision, and conduct listening, responding, and teaching strategies to use in basic counselling support.

Duration: 60 min.

Language(s) available: English

Language(s) in production: Russian

Treatnet Family

Description: This course (3 modules) introduces the elements of family therapy and the evidence-based concepts that underpin family therapy. It outlines the core strategies and skills, as well as the different treatment phases.

Duration: 180 min.

Language(s) in production: English, Russian

PRISON MANAGEMENT

Basic Training for Prison Officers

Description: This course is comprised of three modules which cover the potential of sport to prevent violent extremism, the relevant theories of change, as well as good practice and programming principles.

Duration: 120 min.

Language(s) available: English

Language(s) in production: Somali

The Nelson Mandela Rules

Description: This course contains seven modules that will assist the user in understanding and applying the Nelson Mandela Rules as the universally acknowledged minimum standard for the management of prisons and the treatment of prisoners. The course has been primarily designed as a practical training tool for prison officers and other officials working in prisons. It will be equally relevant for prison monitoring and inspection bodies and other (non-)governmental entities promoting prison reform in the line with international standards and norms.

Duration: 200 min.

Language(s) available: English, Arabic, Bahasa, Bangla, French, German, Kazakh, Malay, Portuguese, Russian, Spanish, Thai, Vietnamese

Prisoner classification

Description: This module aims to assist national prison or corrections administrations with the development of policies and protocols for the implementation and operation of an effective system of prisoner classification that meets international standards and is based on accepted research evidence.

Duration: 75 min.

Language(s) in production: English

RISK MANAGEMENT

Courses available upon request

Introduction to Risk Management

Description: This introductory module offers an overview of the fundamental pillars for a risk management strategy. An analysis of the necessary steps for risk identification, resources and patterns which will lead trainees to more specific training components.

Duration: 90 - 120 min.

Language(s) available: Khmer, Thai

Risk Management at Airports

Description: The objectives of this module are to provide law enforcement agencies with the required background for categorizing risks and to improve the detection of criminal activities taking place at airports.

Duration: 70 - 100 min.

Language(s) available: Khmer, Thai

Risk Management at Land Controls

Description: The objectives of this module are to provide relevant agencies with the required background for setting up an effective strategy to perform border controls. Based on risk identification and solutions to overcome system deficiencies currently in place, this module is designed to strengthen law enforcement measures against cross-border criminal activities.

Duration: 60 - 90 min.

Language(s) available: Khmer, Thai

Risk Management at Seaports

Description: The objectives of this module are to provide law enforcement agencies with the required background for categorizing risks and to improve the detection of criminal activities in seaports and maritime vessels.

Duration: 50 - 90 min.

Language(s) available: Khmer, Thai

Conclusion to Risk Management

Description: This final module will provide key elements for treating or taking corrective action to prevent or minimize the consequences of risks.

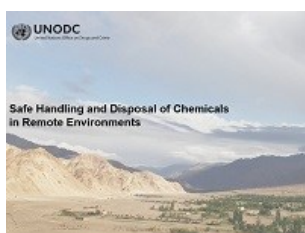

Duration: 45 - 60 min.

Language(s) available: Khmer, Thai

SAFE HANDLING AND DISPOSAL OF CHEMICALS IN REMOTE, DEVELOPING AND NON-SECURE ENVIRONMENTS

Initial Assessment and Safety Procedures

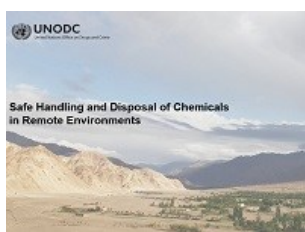

Description: This module will teach practitioners some first steps which should be taken when dealing with a chemical seizure in a remote environment and the essential personal protective equipment required when handling or disposing of chemicals to keep practitioners safe and prevent injury. The module shares the critical safety principles which should be followed when handling, transporting or storing any chemicals in remote environments.

Duration: 60 min.

Language(s) available: English

Identification of Chemicals, Safe Disposal Locations and Application of the UNODC Illustrated Disposal Guide

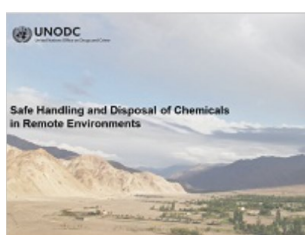

Description: This module covering Chapters 4 to 6, looks at the basic identification and hazard class information on common chemical labels as well as looking at identification of safe disposal locations and the practical use of the UNODC Disposal Guide.

Duration: 60 min.

Language(s) available: English

Rapid Disposal Procedures

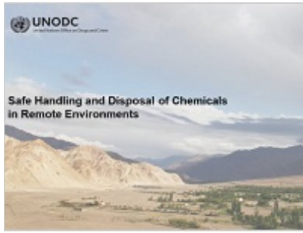

Description: This module covering Chapters 7 to 13, looks at rapid disposal procedures including open-air burning for use in environments where there is an immediate or time critical need for disposal or destruction of chemicals.

Duration: 60 min.

Language(s) available: English

Chemical and Engineered Disposal Procedures

Description: This final module covers Chapters 14 to 19, and looks at several passive and environmentally sustainable disposal procedures as well as engineered disposal procedures including encapsulation and rendering inert procedures for controlled substances.

Duration: 60 min.

Language(s) available: English

SEAPORT INTERDICTION TECHNIQUES AND RISK ASSESSMENT

Courses currently under revision

Introduction to Interdiction Techniques at Seaports

Description: This module introduces the different interdiction techniques that can be used at seaports to identify and intercept drug smugglers. It describes various interdiction techniques and why there is a need to use them.

Duration: 60 - 120 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Risk Assessment at Seaports

Description: This module describes the process of performing a risk assessment at seaports. The module raises the level of awareness and encourages the student to consider areas in the controls where there is a weakness or vulnerability to drug smuggling. The module also encourages the student to consider solutions to minimize or solve the problems.

Duration: 75 - 100 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

Risk Profiling at Seaports

Description: This module covers risk profiling, what it is and how to create a risk profile for use at seaports. A risk profile looks at common drug smuggling characteristics and how by identifying these characteristics, an officer can get an idea of what drug traffickers might look like or what methods they might use.

Duration: 45 - 90 min.

Language(s) available: English, Bahasa, Farsi, Khmer, Thai

Selection Methods at Seaports

Description: This module is an introduction to the Selection process. It will introduce how by using preliminary assessment of cargo, cargo document review and other methods an officer can select persons or cargo that are most likely to be involved in drug smuggling so that they can be given more attention.

Duration: 30 - 45 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

The Review of Passports at Seaports

Description: This module covers how passports can be examined to reveal likely drug traffickers.

Duration: 70 - 100 min.

Language(s) in production: English

Conclusion to Interdiction at Seaports

Description: This module reviews all the information learned in the previous modules in order to see how they all work together to bring practitioners an efficient, systematic way to stop drug trafficking.

Duration: 60 -120 min.

Language(s) available: Bahasa, Khmer, Thai

Language(s) in production: English

SECURITY DOCUMENT EXAMINATION

Introduction to Security and Travel Documents

Description: This module provides an introduction to security and travel documents and their examination. It includes an overview of the fundamental techniques for analyzing security documents including an overview of basic equipment for required document examination. It provides an overview of the screening and examination process for identity documents.

Duration: 60 min.

Language(s) available: English, Farsi, Sinhala, Spanish, Vietnamese

Introduction to Substrates, Printing and Personalization Process

Description: This module provides background information on substrates used for security and travel documents and how it will affect the appearance in particular printing techniques. It includes an overview of the fundamental printing techniques for security documents: offset letterpress, intaglio and silkscreen and details the personalization techniques of identity/travel documents such as: inkjet, thermal mass transfer, thermal dye sublimation and laser engraving.

Duration: 60 min.

Language(s) available: English, Sinhala, Spanish

Introduction to Security Features

Description: This module looks at the specific security features that are utilized in security documents. It covers unique elements or physical characteristics of paper and polymers and includes an overview of printing security features.

Duration: 60 min.

Language(s) available: English, Sinhala, Spanish

Document Fraud and International Cooperation

Description: This module looks at the different types of document fraud that are perpetrated particularly with regard to security documents. It covers the important role of international cooperation in fighting against document fraud and how increased information sharing and the rapid dissemination of intelligence can better counter this crime.

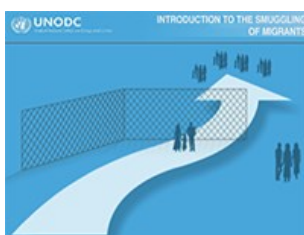

Duration: 60 min.

Language(s) available: English, Spanish

SMUGGLING OF MIGRANTS

Introduction to Smuggling of Migrants

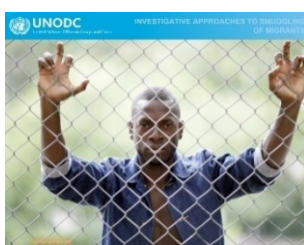

Description: This module covers how the smuggling of migrants is legally defined and the Smuggling of Migrants Protocol. It explains the differences between the Smuggling of Migrants and Trafficking in Persons and the main actors, categories and modus operandi of those engaged in Smuggling of Migrants.

Duration: 60 min.

Language(s) available: English, Arabic, Bahasa, Burmese, Chinese, French, Khmer, Lao, Macedonian, Serbian, Sinhala, Thai, Vietnamese

Investigative Approaches to Smuggling of Migrants

Description: This module covers the primary investigative approaches specific to the Smuggling of Migrants. It details why it is important to treat the smuggled migrant as the victim of a crime and to respond accordingly in the debrief phase to obtain essential evidence.

Duration: 60 min.

Language(s) available: English, Arabic, Bahasa, Burmese, Chinese, French, Khmer, Macedonian, Serbian, Sinhala, Thai, Vietnamese

Investigative Techniques to Counter the Smuggling of Migrants

Description: This module covers the use of specific investigative techniques. It includes the use of informants, undercover officers, covert and technical surveillance, financial investigation and the use of international cooperation.

Duration: 60 min.

Language(s) available: English, Bahasa, Burmese, Chinese, Khmer, Macedonian, Sinhala, Serbian, Thai, Vietnamese

STRENGTHENING NATIONAL EVALUATION CAPACITY

Introduction To Evaluation: Strengthening National Evaluation Capacity for Achieving the Sustainable Development Goals

Description: This module focuses on key evaluation concepts and on why strengthening national evaluation capacity matters for achieving the Sustainable Development Goals.

 **Duration:** 60 min.

 **Language(s) available:** English, French

Evaluating Policies and Programmes

Description: This module focuses on building management and technical skills for evaluating policies and programmes.

 **Duration:** 60 min.

 **Language(s) available:** English, French

TRAINING COURSE ON ILLICIT DRUGS IN BRAZIL AND IN THE INTERNATIONAL CONTEXT

Training Course on Illicit Drugs in Brazil and in the International Context

Description: This course (3 modules) introduces the topic of drug trafficking and transnational organized crime in Brazil and in the international context.

 **Duration:** 120 min.

 **Language(s) available:** Portuguese
